**EXPERIENCE**

Olof Rågmark specializes in dispute resolution, in insurance law and in maritime and transportation law. He handles general commercial disputes before Swedish courts and domestic and international arbitration tribunals. He acts as arbitrator and as counsel in *ad hoc* arbitrations as well as institutional proceedings.

As counsel, Olof Rågmark has also advised commercial clients in shipping and trade related matters, including pertinent corporate and financial issues, shipbuilding and chartering (mainly within pulp and paper industries) and gas/oil as well as mining/minerals, distribution and barter trades, including raw material and fertilizing, sourcing within the

electronic/telecom and power sectors, including price and contractual structures for gas and nuclear power industries.

For many years now, his work has become focused on dispute resolution mainly by international arbitrations including construction contracts in for instance the metal, pulp, nuclear energy and shipping industries, joint venture and long term supply agreement disputes involving different raw material sectors, disputes relating to defects in components delivered to amongst other the communication and power industries, reinsurance and insurance disputes including marine insurance, and price revision and indexation disputes within the European gas and energy sector. In recent years, Olof Rågmark's experience as dispute counsel includes:

- General commercial including breach of contract, cancellation, damages (Swedish and international clients)
- Tort/damages including negligent advice, fire/explosion and procurement issues.
- Gas pricing: Continental-European and non-European long-term contracts (representing buyer or seller)
- Reinsurance: Scandinavian re-insured against Continental-European / Scandinavian / London market reinsurers (XS-reinsurances / liability insurance)

Today, Olof Rågmark is mainly sitting as arbitrator, party appointed or chair, in arbitrations with Swedish venue. His experience as arbitrator includes share purchase disputes, distributorship disputes (including cars, electronics and farming equipment), international sales disputes (including electronics and raw materials), joint ventures disputes (mining and metal, power, distribution), as well as construction, energy, shipbuilding, insurance, finance disputes and general commercial/contract disputes. He has handled *ad hoc* arbitrations as well as proceedings under SCC, ICC, LCIA and Uncitral rules. In recent years, Olof Rågmark's experience as arbitrator includes;
